Learn **online from anywhere, anytime** with personalized doubt solving sessions with free online audio book

Course Details:

This course is designed for beginners who have no prior knowledge of German language and culture. The course duration is 60 hours, and it covers A1.1 as per CEFR.

Here is a more detailed description of the course details:

1. Language:

The language of the course is German, which is taught by qualified and experienced instructors.

2. Target Audience:

The course is designed for beginners who have no prior knowledge of German language and culture. It has been tailor-made for Engineers students and professionals, who are interested in learning a new language for personal or professional growth.

3. Course Level:

The course covers A1.1 as per CEFR. This means that by the end of the course, students will be able to understand and use basic phrases and expressions related to personal information, family, and home.

4. Course Format:

The course is delivered through live online classes with a qualified instructor. This format provides students with the opportunity to interact with the instructor and other students, ask questions, and receive immediate feedback.

By providing a flexible course schedule and using a live online format, we aim to make learning a foreign language accessible to everyone, regardless of their location or schedule. Our experienced instructors are committed to helping students achieve their language learning goals and provide a supportive and engaging learning environment.

Our hybrid foreign language course is designed to help beginners learn the basics of the target language and achieve the following objectives:

1. **LSRW Skills:**

By the end of the course, students will be able to understand and respond to simple and common phrases and questions in the target language.

Students will be able to communicate using basic phrases and expressions in the target language, including introducing themselves, asking and answering simple questions, and talking about their interests.

Students will be able to read and understand simple texts in the target language, including signs, menus, and basic messages.

Students will be able to write simple phrases and sentences in the target language, such as filling out basic forms and writing short messages.

2. **Grammar:**

The course covers key grammar concepts in the target language, including verb conjugation, sentence structure, and basic vocabulary.

3. **Confidence:**

Students will gain confidence in using the target language in real-life situations and feel more comfortable communicating with native speakers.

4. **Cultural Awareness:**

Students will gain a basic understanding of the culture and customs of the target language, which will enable them to better understand and communicate with native speakers.

5. **Professional Growth:**

Learning the German language enhances professional growth by providing access to a wider network of opportunities and facilitating effective communication within German-speaking workplaces, leading to increased employability and career advancement.

6. **Future Scope:**

This course opens doors to appear for TestDaF, collaborate with German companies, access cutting-edge research, and participate in international projects, contributing to a globalized career with diverse opportunities.
